

Sibley Prairie lies just a few hundred feet off Telegraph Rd. It's a magical oasis of threatened and endangered plants. It provides critical habitat for birds, pollinators and other wildlife. It's some of the last open land in southeast Michigan - and we have a once-in-a-lifetime chance to purchase and protect it forever.

Sibley Prairie should be a haven for everyone. Please help save it before it disappears!

Save It, Don't Pave It **We can save Sibley Prairie from the bulldozers!**
